

Snitterfield Parish Council

Annual Parish Assembly 2021

Presentations

To encourage discussion and debate, two speakers were invited who share a passion for the natural environment. They have a great deal of knowledge and experience between them and are able to talk at length on infrastructure issues that make a difference to rural lives: Green Belt, tree management, ecology and biodiversity, better homes, climate change initiatives, sustainable transport, even green traffic calming schemes.

Peter Wharton of [Wharton Natural Infrastructure Consultants](#) presented possibilities for green development in Snitterfield.
