

**Village Hall**

The Village Hall Management Committee is working hard to re-open the Village Hall following recent Covid-19 Government guidance. Work will entail a deep clean and a detailed risk assessment. It is hoped that the Hall can be opened in September, although there will be strict conditions and arrangements. Work will start on the new toilet block for disabled users in August, following successful fund raising.

**Snitterfield Play Areas**

Following Government Guidance that Play Areas could be re-opened post Covid-19, Councillor Paul Smith is to carry out a full risk assessment and ensure that relevant signage is displayed to maximise the safety of all play area users. Fortnightly play area inspections will take place by Councillors and they will provide a check list to ensure compliance with the Council's insurers.

**Planning**

The Parish Council has agreed to establish a sub-committee to improve the Council's response to planning applications. Four Councillors make up the committee and it will meet on the first Monday of the Month (not including August), so interspersed between Parish Council meetings.

**Methodist Church**

The planning application for this development of this building, which was objected to by the Parish Council, was refused by the Planning Committee of Stratford on Avon District Council.
