

**Hurdler’s Lane** – work has commenced to install gas into the houses in Hurdler’s Lane so that the houses can be heated more effectively at lower cost by gas central heating.

However, the bad workmanship of the contractors appointed to rectify the problems, which have largely been caused by the defective workmanship of previous (and in some cases the same) contractors, continues to exasperate the Parish Council and, in particular, Councillors Blanchard and Cox, who are leading the drive to resolve the many outstanding issues.

**County Council Community Grants scheme** – the Parish Council very much appreciates the efforts of our County Councillor, Anne Parry, who has secured for the benefit of the village two grants of £750 each for the Playing Field and the Village Hall respectively. Residents are encouraged to participate in the current discussions regarding the future use of the playing field and to assist the Village Hall Management Committee to raise funds for the major improvements planned for the Village Hall.

**Snitterfield Neighbourhood Development Plan** – copies of the Plan have been delivered to all residential properties in Snitterfield.
